

POWERFUL, COMPACT, MOBILE

VC 150-6 X/XE and VC 150-10 X/XE
Second generation wet/dry vacuum

Make clean up easier with smart wet/dry vacuum technology. Developed to provide more performance, the second generation VC 150 X and XE vacuums have been enhanced to help give you better mobility around the jobsite.

Both VC 150 X and XE versions are now smarter than ever. The integrated self-diagnosis function and new interface provide the user with continuous updates on the status of the vacuum cleaner, helping to make maintenance easier and providing clarity on when the filters need to be changed.

The VC 150-10 X/XE vacuums maintain large net capacity, offering the right solution for dust heavy applications. The VC 150-6 X/XE vacuums are the perfect solution for when you need a compact and lightweight vacuum.

EXCLUSIVELY
DESIGNED
ACCESSORIES

APPLICATIONS AND ADVANTAGES

- Greater mobility — the big wheels and push-bar of the VC 150-10 allows for better mobility
- Smarter than ever — the vacuum cleaner self diagnoses and informs the user of the status and when the filter needs to be replaced
- High volume flow rate — the second generation VCX 150s have a driving high volume flow rate of 156 CFM
